SPECIAL RULES.

1. Conductors and engineers must note bulletin boards and bulletin books daily in the telegraph offices at Truckee, Wadsworth, Winnemucca and Carlin.

2. First-class trains must not run faster than forty miles per hour, and inferior-class trains not faster than twenty miles per hour, where track and alignment are good. Through cañons and around sharp curves the limits of speed must not exceed twenty-five miles and fifteen miles per hour, respectively, for first and inferior class trains. Trains must not exceed card-time speed over bridges between Truckee and Reno.

3. Truckee and Reno are terminals for Trains Nos. 11 and 12; Truckee and Carlin for Trains Nos. 1, 2, 3 and 4; Truckee, Wadsworth, Winnemucca and Carlin for Trains Nos. 5, 6, 7, 8, 9 and 10.

4. All trains must register at Truckee, Reno, Wadsworth, Winnemucca and Carlin. Clocks at Truckee, Wadsworth, Winnemucca and Carlin are standard clocks.

5. Martis Creek, Burckhalter, Cuba, Hamlins, Marmol and Eagle Salt Works are flag stations for Trains Nos. 1 and 2. Passenger trains will stop for passengers only at such stations as are indicated or named as regular or flag stops for each particular train.

6. Freight Trains Nos. 11 and 12 will carry passengers between Truckee and Reno. No other freight trains will carry passengers, except employés provided with passes traveling on company business.

7. The limits of Reno yard extend from Asylum Switch to the west end of the long siding west of Reno. Within these limits all trains must run with care, expecting to find main track occupied.

8. Besides those indicated on the time table there are water tanks between Mystic and Essex and between Lovelock's and Woolsey.

In pulling out of stations, brakemen must watch wheels closely to see that brakes are fully released, and will immediately signal engineers to stop if wheels are found sliding. Engineers must keep a sharp lookout for such signals, as per Rule 278. Each brakeman will be held responsible for any wheels slid flat under the part of the train in his charge. Conductors in reporting flat wheels will give name of brakeman in charge.

See Rule 84.—All west-bound trains have the absolute right of track over all trains of the same class running in the opposite direction.
